Acquired immunodeficiency syndrome
alveolar-capillary block in patients with, 443
lymphadenopathy in inner-city population consisting principally of intravenous drug abusers with suspected, 1275
intensive care of patients with (editorial), 1261
transbronchial biopsy without fluoroscopy in patients with (clinical commentary), 486
Adenosine monophosphate, cyclic-3′,5′-polymorphonuclear leukocyte inhibition by therapeutic concentrations of, is mediated by, 25
Adolescents, male, lung function and bronchial reactivity in, and lower respiratory illness in early childhood, 302
Adult respiratory distress syndrome
as specific manifestation of general permeability defect in trauma patients, 95
effect of almitrine on ventilation-perfusion distribution in, 1062
existence of leukotoxin 9,10-epoxy-12-octadecenoate in lung lavages from patients with, 535
peptide from alveolar macrophages that releases neutrophil enzymes into lungs in patients with, 1151
pulmonary extraction
and pharmacokinetics of prostaglandin E_1 during continuous intravenous infusion in patients with, 5
of PGE_1 in (editorial), 2
Aerosol(s)
hypotonic, and ventilatory response to CO_2, relationship between cough caused by, in normal subjects, 647
metered-dose inhaler, oropharyngeal deposition and delivery aspects of (correspondence), 985
selective delivery of pentamidine to lung by (note), 477
Air
cold dry,
inhalation of, theophylline minimally inhibits bronchoconstriction induced by, in asthmatic subjects, 1304
nonspecific bronchial hyperresponsiveness to inhaled histamine and hyperventilation of, in subjects with respiratory symptoms of uncertain cause, 1020
flow
-induced constriction in canine lung periphery, aminophylline reduces, 31
limitation, expiratory, mechanical effects of, on cardiac performance in cystic fibrosis, 132
and normal lung sounds, 872
obstruction, chronic
association between nonspecific bronchial hyperreactivity and superoxide anion production by polymorphonuclear leukocytes in, 57
indomethacin and perception of dyspnea in, 1094
pollution, indoor, health effects and sources of (state of the art), 221
-space enlargement
cadmium-chloride-induced, with interstitial pulmonary fibrosis is not associated with destruction of lung elastin, 918
distal, CT measurements of lung density in life can quantitate, in emphysema, 380
Airway(s)
constriction, acute reduction in fraction of inspired oxygen increases, in infants with chronic lung disease, 861
epithelial damage in premature infants with respiratory failure (case report), 450
guinea pig
effect of platelet-activating factor on histamine and muscarinic receptor function in, 1317
endotoxin-induced inflammation and injury of, cause bronchial hyporeactivity, 1441
hyperresponsiveness to C3a, induction of, in guinea pig, 636
injury, infectious, models of, in children (NHLBI workshop summary), 979
mucosal permeability in chronic bronchitics and bronchial asthmatics with hypersecretion, 866
protective reflexes, upper, prolonged apnea associated with, in apnea of prematurity, 113
muscle activation, upper, is augmented in patients with obstructive sleep apnea compared with that in normal subjects, 889
remodeling, distal, in rats chronically exposed to ozone, 924
responses
late, to antigen challenge in sensitized inbred rats, to ultra short-term exposure to ozone, 326, 1033
responsiveness
histamine bronchoconstriction reduces, in asthmatic subjects, 1323
to histamine and pulmonary function level, relationship between, in random population sample, 826
secretion
cellular mechanisms of (NHLBI workshop summary), 479
influence upper airway patency in rabbit, 1379
segment, isolated, mediator release in, in subjects with asthma, 641
small, *in vivo* exposure to ozone causes increased *in vitro* responses of (note), 1236
tolerance to repetitive exercise, indomethacin blocks, but not to eucapnic hyperpnea in asthmatic subjects, 842
Albuterol has no effect on diaphragmatic fatigue in humans, 197
Alcohol consumption, heavy, pulmonary function is influenced by, 1119
Allergen
administration, eosinophil recruitment into guinea pig lungs after, 948
challenge, bronchoalveolar, activation of pulmonary mast cells by, 1002
Allograft survival and lung defense, implications for, after lung-heart transplantation with *P. carinii* infection, 1268
Almitrine, effect of, on ventilation-perfusion distribution in adult respiratory distress syndrome, 1062
Alpha
-naphthylthiourea-induced microvascular damage on indexes of pulmonary endothelial function in anesthetized dogs, 1350
-1-antitrypsin
emphysema of early onset associated with complete deficiency of, 371
S-type, evaluation of, as inhibitor of neutrophil elastase, 364
-1-proteinase inhibitor, sheep, characterization of, 558
Aluminum inhalation reduces silicosis in sheep model, 1172
Alveolar-capillary block in patients with AIDS and *P. carinii* pneumonia, 443
Alveolar macrophages. *See* Macrophages, alveolar
Alveolitis, experimental extrinsic allergic, sequential bronchoalveolar lavage in, 1104
American Thoracic Society
Potential for conflict of interest of members of the American Thoracic Society, 489
Aminophylline
has little positive inotropic effect and slightly negative diastolic effect on left ventricle during hypoxic conditions in dogs, 1296
reduces air-flow-induced constriction in canine lung periphery, 31
Amiodarone-induced phospholipidosis in rat alveolar macrophages, 510
Ampicillin-resistant *Hemophilus influenzae* in adults with chronic lung disease, 695
Anesthesia, laryngeal, effect of, on pulmonary function testing in normal subjects, 656

Acquired immunodeficiency syndrome
alveolar-capillary block in patients with, 443
lymphadenopathy in inner-city population consisting principally of intravenous drug abusers with suspected, 1275
intensive care of patients with (editorial), 1261

Angiitis, allergic bronchopulmonary aspergillosis progressing to (case report), 1226
Angiotensin-converting enzyme
from lavage as marker of lung injury, 531
substance P-induced bronchoconstriction in guinea pig enhanced by inhibitors of, 331
Antagonists, selective, modulate eosinophil recruitment into guinea pig lungs after PAF-acether and allergen administration, 948
Antibodies
anti-T-lymphocytes, functional significance of, in sarcoidosis, 600
monoclonal, to surfactant proteins, SP28-36 label canine type II and nonciliated bronchiolar cells by immunofluorescence, 399
Antigen(s)
challenge in sensitized inbred rats, late airway responses to, 1033
increased procollagen III aminoterminal peptide-related and fibroblast growth signals in lungs of patients with idiopathic pulmonary fibrosis, 572
Apnea(s)
identification and quantification of, by computer-based analysis of O_2 saturation (note), 1238
obstructive sleep
role of, in nocturnal asthma (note), 1502
upper airway muscle activation is augmented in patients with, 889
prolonged, associated with upper airway protective reflexes in apnea of prematurity, 113
Arachidonic acid metabolism
H_2O_2-induced, in rat alveolar macrophages, 49
stimulation of, by adherence of alveolar macrophages to a plastic substrate, 38
Asbestos bodies in bronchoalveolar lavage and in lung parenchyma, 75
Aspergillosis, allergic bronchopulmonary, progressing to allergic granulomatosis and angiitis (case report), 1226
Aspirates, tracheal, surfactant-associated proteins in, of infants with respiratory distress syndrome after surfactant therapy, 943
Aspirin, release of leukotrienes, prostaglandins, and histamine into nasal secretions of aspirin-sensitive asthmatics during reaction to, 847
Asthma
acute, plasma elevations of histamine and prostaglandin metabolite in, 1009
aspirin-sensitive subjects with, release of leukotrienes, prostaglandins, and histamine into nasal secretions of, during reaction to aspirin, 847
changes in serum K^+ in subjects with, during exercise, 833
effect of aerosolized verapamil on response to isoproterenol in patients with (clinical note), 722
fatal, in subject sensitized to toluene diisocyanate (case report), 1494
histamine bronchoconstriction reduces airway responsiveness in subjects with, 1323
hypertonic saline-induced, comparison of mediator and catecholamine release between exercise- and, 1026
indomethacin blocks airway tolerance to repetitive exercise but not to eucapnic hyperpnea in subjects with, 842
late response in, reexamination of, in exercise, 837
mediator release in isolated airway segment in subjects with, 641
nocturnal, role of snoring and obstructive sleep apnea in (note), 1502
occupational, caused by toluene diisocyanate, follow-up study of subjects with, 1326
persistent, caused by isocyanates, 1326
release of histamine and tryptase in atopic subjects with and without, during activation of pulmonary mast cells by bronchoalveolar allergen challenge, 1002
requiring hospitalization, acute severe, serial relationships between ventilation-perfusion inequality and spirometry in, 1055
response to ovalbumin inhalation in guinea pig, development of prolonged eosinophil-rich inflammatory leukocyte infiltration in, 541
severe acute, acute myopathy in, treated with intravenously administered corticosteroids (case report), 460
subjects with hypersecretion and bronchial, airway mucosal permeability in, 866
theophylline minimally inhibits bronchoconstriction induced by dry cold air inhalation in subjects with, 1304
tolerance to methacholine inhalation challenge in subjects without (note), 1499
Atrophy, cerebellar, respiratory muscle weakness associated with, 673
Baboon lung, accumulation of platelets and eosinophils in, after PAF-acether challenge and its inhibition by ketotifen, 855
Beryllium, pulmonary toxicity of (state of the art), 464
Beta-aminopropionitrile treatment, NO_2-induced emphysema in rats ameliorated by, 376
Biliary drainage, percutaneous, biliopleural fistula as complication of (case report), 959
Biomedical research, current and prospective funding of (correspondence), 985
Biopsy
open lung, in patients with diffuse pulmonary infiltrates and acute respiratory failure, 90
transbronchial, without fluoroscopy in patients with diffuse roentgenographic infiltrates and AIDS (clinical commentary), 486
Biphrenectomy, chronic, effect of, on lung growth and maturation in fetal lambs, 167
Bleomycin
-induced lung
damage, deferoxamine infusion does not inhibit, in rat, 1356
fibrosis, effect of iron deficiency on, in hamster, 85
intensity of chronic lung inflammation and fibrosis after, is directly related to severity of acute injury, 564
spontaneous *in vitro* release of alveolar macrophage cytokines after intratracheal instillation of, in rats, 1135
Bombesin immunoreactive pulmonary neuroendocrine cells, changes in, in cystic fibrosis and after prolonged mechanical ventilation, 123
Book Reviews
Blood gases and acid-based physiology (2nd ed). By Norman L. Jones, 497
Clinical exercise testing (3rd ed). By Norman L. Jones, 987
Code blue: cardiac arrest and resuscitation. Eisenberg, Cummins, and Ho, eds., 749
Control of breathing in man. B. J. Whipp, ed., 1249
Diagnosis of diseases of the chest (3rd ed). By Fraser, Paré, Paré, Fraser, and Genereux, 749
Drug use in respiratory disease. J. Douglas Wilson, ed., 987
Handbook of physiology. The respiratory system, vol. IV: Gas exchange. Farhi, Tenny, and Geiger, eds., 1249
Hypoxia, polycythemia and chronic mountain sickness. By Winslow and Monge, 1249
Laboratory evaluation of pulmonary function. By Miller, Scacci, and Gast, 246
Laboratory exercises in respiratory care. By Daniel J. Grady, 987
Manual of allergy and immunology (2nd ed). Lawlor and Fischer, eds., 749
Medical toxicology: diagnosis and treatment of human poisoning. By Ellenhorn and Barceloux, 987
Pathology of the mesothelium. J. S. P. Jones, ed., 1249
Pulmonary pathology (2nd ed). By M. S. Dunnill, 246
Respiratory disease. By Tattersfield and McNicol, 246
Surgical treatment of lung carcinoma. Nael Martini, ed., 749
Bradykinin
nasal provocation with, induces symptoms of rhinitis and a sore throat, 613
release of multiple tachykinins from capsaicin-sensitive sensory nerves in lung by, 1330

Breathing
in pregnancy, rib cage and abdominal volume displacements during, 668
variability of perceived sense of, during exercise in patients with COPD (note), 206
Breathlessness
effect of nasal flow on, in patients with COPD, 1285
induced in normal subjects, cold facial stimulation reduces (correspondence), 491
should we continue using questionnaires on, in epidemiologic surveys? 1114
Bronchiectasis (state of the art), 969
Bronchitis, chronic, subjects with hypersecretion and, airway mucosal permeability in, 866
Bronchoalveolar lavage
asbestos bodies in, and lung parenchyma, 75
elevated concentrations of soluble interleukin-2 receptors in, in active sarcoidosis, 759
eosinophils and mast cells in, in subjects with mild asthma, 62
natural killer cell activity in (correspondence), 1244
phospholipids, abnormalities in, in idiopathic pulmonary fibrosis, 585
in primary pulmonary lymphoma with monoclonal gammopathy (case report), 957
pulmonary edema after *E. coli* peritonitis correlates with thiobarbituric-acid-reactive materials in, 783
sequential, in experimental extrinsic allergic alveolitis, 1104
T-lymphocytes recovered by, from normal subjects and from patients with sarcoidosis are refractory to proliferative signals, 592
uniformity of, in patients with pulmonary sarcoidosis, 79
Bronchoconstriction
early- and late-phase, after allergen challenge of nonanesthetized guinea pigs, 548
histamine, reduces airway responsiveness in asthmatic subjects, 1323
induced by
dry cold air inhalation, theophylline minimally inhibits, in asthmatic subjects, 1304
platelet-activating factor, mechanism of, in humans, 1015
mechanism of tachykinin-induced, in rats, 1038
methacholine-
and exercise-induced, isotonic nebulized disodium cromoglycate provides better protection against, 1309
induced, inhibition of, in patients with COPD, 281
serial distribution of, methacholine versus histamine in, in normal subjects, 1312
substance P-induced, in guinea pig, 331
Bronchodilator responsiveness in infants and young children with cystic fibrosis, 119
Bronchomotor tone, endogenous regulation of (state of the art), 1198
Budesonide, inhaled, dosage and time effects of, on bronchial hyperreactivity, 44
Cadmium-chloride-induced air-space enlargement with interstitial pulmonary fibrosis is not associated with destruction of lung elastin, 918
Calcitonin immunoreactive pulmonary neuroendocrine cells, changes in, in cystic fibrosis and after prolonged mechanical ventilation, 123
Cancer, lung
and cigarette smoking in New Mexico, 1110
and diesel exhaust exposure, retrospective cohort study of, in railroad workers, 820
evaluation of intrathoracic extent of, by plain chest radiography, computed tomography, and magnetic resonance imaging, 1456
Capsaicin-sensitive sensory nerves, release of multiple tachykinins from, in lung by bradykinin, histamine, dimethylphenyl piperazinium, and vagal nerve stimulation, 1330
Carbon dioxide, ventilatory response to, relationship between cough caused by hypotonic aerosol and, in normal subjects, 647
Cat
airways of, dexamethasone inhibits respiratory glycoconjugate secretion from, *in vitro*, by induction of lipocortin synthesis, 353
lung of, reversal of vascular tachyphylaxis to catecholamines and histamine in, 1336
Catalase, effect of, on endotoxin-induced acute lung injury in unanesthetized sheep, 420
Catecholamine(s)
and mediator release, comparison of, between exercise- and hypertonic saline-induced asthma, 1026
reversal of vascular tachyphylaxis to, in feline lung, 1336
Cell(s)
activity, natural killer, in bronchoalveolar lavage (correspondence), 1244
alveolar type II epithelial, histochemical and immunocytochemical identification of, isolated from fetal rat lung, 525
blast, transfer experimental hypersensitivity pneumonitis in guinea pigs, 1449
bombesin, calcitonin, and serotonin immunoreactive pulmonary neuroendocrine, changes in, in cystic fibrosis and after prolonged mechanical ventilation, 123
from bovine trachea, epithelial, ozone-induced augmentation of eicosanoid metabolism in, 435
Con A-induced suppressor, assessory characteristics for the generation and functional expression of, 765
Langerhans', accumulation of, on epithelial surface of lower respiratory tract in association with cigarette smoking, 406
mast, and eosinophils in bronchoalveolar lavage in subjects with mild asthma, 62
nonciliated bronchiolar, monoclonal antibodies to, by immunofluorescence, 399
pulmonary mast, activation of, by bronchoalveolar allergen challenge, 1002
rat alveolar type II, role of intracellular glycerol-3-phosphate in synthesis of phosphatidylglycerol by, 519
Chemotaxis, alveolar macrophage, effect of, on bacterial clearance from lung surface, 1129
Chemotherapy, five-year follow-up of clinical trial of three 6-month regimens of, given intermittently in continuation phase in treatment of pulmonary tuberculosis, 1147
Children
active, normal, effects of ambient ozone on respiratory function in, 313
lower respiratory illness in, and lung function and bronchial reactivity in adolescent males, 302
maternal smoking and bronchial responsiveness in (correspondence), 243
models of infectious airway injury in (NHLBI workshop summary), 979
with cystic fibrosis, bronchodilator responsiveness in, 119
Chloramphenicol resistant *Hemophilus influenzae* in adults with chronic lung disease, 695
Chlorine secretion, stimulation of, by neurokinin A and neurokinin B in canine tracheal epithelium, 899
Churg-Strauss syndrome, allergic bronchopulmonary aspergillosis progressing to (case report), 1226
Cigarettes. *See* Smokers and Smoking
Cilia, propulsion of mucus by (state of the art), 726
Coal miners, British, clinically important respiratory effects of dust exposure and smoking in, 106
Colchicine suppresses release of fibroblast growth factors from alveolar macrophages *in vitro*, 181
Cor pulmonale, stable and decompensated, effects of controlled oxygen therapy on ventricular function in patients with, 1289

acute lung injury, effect of catalase on, in unanesthetized sheep, 420
inflammation and injury of guinea pig airways causes bronchial hyporeactivity, 1441
Enzymes, neutrophil, peptide from alveolar macrophages that releases, into lungs in patients with adult respiratory distress syndrome, 1151
Eosinophil(s)
accumulation of, in baboon lung after PAF-acether challenge and its inhibition by ketotifen, 855
major basic protein, human, effect of, on ion transport in dog tracheal epithelium, 13
and mast cells in bronchoalveolar lavage in subjects with mild asthma, 62
recruitment into guinea pig lungs after PAF-acether and allergen administration, 948
-rich inflammatory leukocyte infiltration, development of prolonged, in guinea-pig asthmatic response to ovalbumin inhalation, 541
Epithelium, canine tracheal
effect of human eosinophil major basic protein on ion transport in, 13
stimulation of chlorine secretion by neurokinins A and B in, 899
Escherichia coli peritonitis correlates with thiobarbituric-acid-reactive material in bronchoalveolar lavage, 783
Ethambutol plus rifabutine or rifampin, combinations of, against *M. avium* complex, 711
Ethane production rate in rats exposed to high oxygen concentration, 341
Ethanol-induced depression of hypoxic drive and reversal by naloxone, sex difference in, 1406
Exercise
changes in serum K^+ in healthy and in asthmatic subjects during, 833
effects of urapidil therapy on hemodynamics and gas exchange during, in patients with COPD and pulmonary hypertension, 1068
-induced
asthma, comparison of mediator and catecholamine release between hypertonic saline-induced and, 1026
bronchoconstriction, isotonic nebulized disodium cromoglycate provides better protection against, 1309
limitation, lung function impairment as guide to, in work-related lung disorders, 1089
maximal, lack of radiographic evidence of interstitial pulmonary edema after, in normal subjects (note), 474
reexamination of late asthmatic response to, 837
repetitive, indomethacin blocks airway tolerance to, but not to eucapnic hyperpnea in asthmatic subjects, 842
variability of perceived sense of effort in breathing during, in patients with COPD (note), 206
Fenoterol, effects and mechanism of, on fatigued canine diaphragm, 1048
Fibroblast
growth
factors, colchicine suppresses release of, from alveolar macrophages *in vitro*, 181
signals, increased procollagen III aminoterminal peptide-related antigens and, in lungs of patients with idiopathic pulmonary fibrosis, 572
lines, human adult lung, heterogeneous proliferative characteristics of, and clonally derived fibroblasts from control and fibrotic tissue, 579
Fibrosis
and chronic lung inflammation, intensity of, after bleomycin is directly related to severity of acute injury, 564
cystic
bronchodilator responsiveness in infants and young children with, 119
changes in bombesin, calcitonin, and serotonin immunoreactive pulmonary neuroendocrine cells in, 123
mechanical effects of expiratory airflow limitation on cardiac performance in, 132
idiopathic pulmonary
abnormalities in bronchoalveolar lavage phospholipids in, 585
increased procollagen III aminoterminal peptide-related antigens and fibroblast growth signals in lungs of, 572
interstitial pulmonary, cadmium-chloride-induced air-space enlargment with, is not associated with destruction of lung elastin, 918
lung, effect of iron deficiency on bleomycin-induced, in hamster, 85
Fistula, biliopleural, as complication of percutaneous biliary drainage (case report), 959
Fluoroscopy, transbronchial biopsy without, in patients with diffuse roentgenographic infiltrates and AIDS (clinical commentary), 486
Gammopathy, monoclonal, bronchoalveolar lavage in primary pulmonary lymphoma with (case report), 957
Gas
exchange, effects of
unilateral pleural symphysis on, in anesthetized dogs, 1385
urapidil therapy on hemodynamics and, in exercising patients with COPD and pulmonary hypertension, 1068
volume measurements, thoracic, in COPD by low frequency ambient pressure changes, 277
Glycerol-3-phosphate, intracellular, role of, in synthesis of phosphatidylglycerol by freshly isolated adult rat alveolar type II cells, 519
Glycoconjugate secretion, respiratory, dexamethasone inhibits, from feline airways *in vitro* by induction of lipocortin synthesis, 353
Granulocyte elastase, human, bacterial species-dependent inhibition of, 907
Granulomatosis, allergic, allergic bronchopulmonary aspergillosis progressing to (case report), 1226
Great Britain, clinically important respiratory effects of dust exposure and smoking in coal miners in, 106
Growth factor-beta, transforming, high levels of, are present in epithelial lining fluid of normal human lower respiratory tract, 1360
Guinea pig
airways
effect of platelet-activating factor on histamine and muscarinic receptor function in, 1317

endotoxin-induced inflammation and injury of, cause bronchial hyporeactivity, 1441
asthmatic response to ovalbumin inhalation, development of prolonged eosinophil-rich inflammatory leukocyte infiltration in, 541
effects of cigarette smoke on tissue uptake and retention of iron oxide in, 1382
lungs, eosinophil recruitment into, after PAF-acether and allergen administration, 948
nonanesthetized, early- and late-phase bronchoconstriction after allergen challenge of, 548
phosphoramidon potentiates increase in lung resistance mediated by tachykinins in, 337
substance P-induced bronchoconstriction in, 331
tracheal smooth muscle, effect of nipradilol on contraction induced by leukotriene D_4 in, 1045
Hamsters, effect of iron deficiency on bleomycin-induced lung fibrosis in, 85
Health
care, high cost of (correspondence), 491
and disease, postnatal lung development in (NHLBI workshop summary), 742
Hemodynamics, pulmonary effects of pentoxifylline on, during acute hypoxia in anesthetized dogs, 1099
Hemophilus influenzae, ampicillin-, tetracycline-, and chloramphenicol-resistant, in adults with chronic lung disease, 695
Hemoptysis, fatal, in acute bacterial endocarditis (case report), 1223
Hispanics in New Mexico
discrepancies between self-reported and validated cigarette smoking in community survey of, 810
respiratory diseases and cigarette smoking in, 815
Histamine
airway responsiveness to, and pulmonary function level, relationship between, in random population sample, 826
bronchoconstriction reduces airway responsiveness in asthmatic subjects, 1323
effect of platelet-activating factor on, in guinea pig airways, 1317
inhaled, nonspecific bronchial hyperresponsiveness to, and hyperventilation of cold dry air in subjects with respiratory symptoms of uncertain cause, 1020
plasma elevations of, and prostaglandin metabolite in acute asthma, 1009
release of
in atopic subjects with and without asthma during activation of pulmonary mast cells by bronchoalveolar allergen challenge, 1002
multiple tachykinins from capsaicin-sensitive sensory nerves in lung by, 1330
into nasal secretions of aspirin-sensitive asthmatics during reaction to aspirin, 847
reversal of vascular tachyphylaxis to, in feline lung, 1336
versus methacholine in serial distribution of bronchoconstriction in normal subjects, 1312
Histoplasmosis, experimental pulmonary, and emphysema, 1193
Hydrogen-peroxide
-induced arachidonic acid metabolism in rat alveolar macrophages, 49
inhalation, diffuse interstitial lung disease associated with, in dairy worker (case report), 1233
Hyperlucency, unilateral lung, after mediastinal irradiation (case report), 955
Hyperosmolar solutions, *in vivo* release of inflammatory mediators by, 606
Hyperpnea, eucapnic, indomethacin blocks airway tolerance to repetitive exercise but not to, in asthmatic subjects, 842
Hyperreactivity
bronchial
dosage and time effects of inhaled budesonide on, 44
relationship of, to eosinophils and mast cells in bronchoalveolar lavage in subjects with mild asthma, 62
nonspecific bronchial, and superoxide anion production by polymorphonuclear leukocytes, association between, in chronic air-flow obstruction, 57
Hyperresponsiveness
airway, to C3a in guinea pig, induction of, 636
bronchial, longitudinal study of occurrence of, in western red cedar workers, 651
nonspecific bronchial, to inhaled histamine and hyperventilation of cold dry air in subjects with respiratory symptoms of uncertain cause, 1020
Hypersecretion, airway mucosal permeability in chronic bronchitics and bronchial asthmatics with, 866
Hypersensitivity pneumonitis, different types of cytotoxic lymphocytes recovered from lungs of patients with, 70
Hypertension, pulmonary, effects of urapidil therapy on hemodynamics and gas exchange in exercising patients with, 1068
Hyporeactivity, bronchial, endotoxin-induced inflammation and injury of guinea pig airways cause, 1441
Hypoventilation, central, magnetic resonance imaging and computerized tomography in, 393
Hypoxemia during sleep in Duchenne muscular dystrophy, 884
Hypoxia
acute, effects of pentoxifylline on pulmonary hemodynamics during, in anesthetized dogs, 1099
aminophylline has little positive inotropic effect and slightly negative diastolic effect on left ventricle during, in dogs, 1296
Ia, expression of, by murine alveolar macrophages is upregulated during evolution of specific immune response in pulmonary parenchyma, 1411
Iatroepidemics
(correspondence), 491
and critical care (correspondence), 491
Immunofluorescence, monoclonal antibodies to surfactant proteins SP28-36 label canine type II and nonciliated bronchiolar cells by, 399
Immunoglobulin
-A-driven antibacterial activity against *Streptococcus pneumoniae* by mouse lung lymphocytes, 138
synthesis, does it occur on epithelial surface of human lower respiratory tract, 17
Indomethacin
blocks airway tolerance to repetitive exercise but not to eucapnic hyperpnea in asthmatic subjects, 842
and perception of dyspnea in chronic airflow obstruction, 1094
Infants
premature and with respiratory failure, airway epithelial damage in (case report), 450
with
chronic lung disease, acute reduction in fraction of inspired oxygen increases airway constriction in, 861
cystic fibrosis, bronchodilator responsiveness in, 119
respiratory distress syndrome after surfactant therapy, surfactant-associated proteins in tracheal aspirates of, 943
who subsequently develop bronchopulmonary dysplasia, pulmonary clearance of ^{99m}Tc-DTPA in (note), 210
Infection
experimental rhinovirus, in human volunteers exposed to ozone, 1124
murine cytomegalovirus respiratory pathophysiology of enhanced susceptibility to, during short-term exposure to 5 ppm NO_2, 912
P. carinii, unexpectedly high incidence of, after lung-heart transplantation, 1268
respiratory tract, increased susceptibility to neurogenic inflammation in rat trachea, 1432
Inflammation
after fibrin microembolization, 630
chronic lung, intensity of, and fibrosis after bleomycin is directly related to severity of acute injury, 564

endotoxin-induced, and injury of guinea pig airways cause bronchial hyporeactivity, 1441
pleural, experimental evidence for, in biliopleural fistula as complication of percutaneous biliary drainage (case report), 959
Inflammatory mediators
are released in response to cold dry air, osmolality of nasal secretions increases when, 625
in vivo release of, by hyperosmolar solutions, 606
synergism between, 636
Influenza vaccination, whole virus, effect of, on theophylline pharmacokinetics, 903
Inhalation
aluminum, reduces silicosis in sheep model, 1172
of bacterial endotoxin, mediators of pulmonary injury induced by, 100
challenge, methacholine, tolerance to, in nonasthmatic subjects (note), 1499
cold dry air
osmolality of nasal secretions increases when inflammatory mediators are released in response to, 625
theophylline minimally inhibits bronchoconstriction induced by, in asthmatic subjects, 1304
H_2O_2, diffuse interstitial lung disease associated with, in dairy worker (case report), 1233
ovalbumin, development of prolonged eosinophil-rich inflammatory leukocyte infiltration in guinea-pig asthmatic response to, 541
Intensive care
of patients with AIDS (editorial), 1261
units
escalating costs and limitations of (correspondence), 491
lung water measurement in (correspondence), 747
Interferon, recombinant gamma, comparative oxidative microbicidal activity of human blood monocytes and alveolar macrophages and activation by (correspondence), 1244
Interleukin
-1-beta gene expression in human monocytes on alveolar macrophages from normal subjects and patients with sarcoidosis, 1180
-2 receptors
elevated concentrations of soluble, in serum samples and bronchoalveolar lavage in active sarcoidosis, 759
and sarcoidosis (editorial), 757
Ion transport, effect of human eosinophil major basic protein on, in dog tracheal epithelium, 13
Iron
deficiency, effect of, on bleomycin-induced lung fibrosis in hamster, 85
oxide, effects of cigarette smoke on tissue uptake and retention of, in guinea pig, 1382
Irradiation, mediastinal, unilateral lung hyperlucency after (case report), 955
Isoniazid
preventive therapy, decision analysis for (correspondence), 1244
(editorial), 2
for tuberculin reactor (pulmonary perspective), 215
Isoproterenol, response to, effect of aerosolized verapamil on, in asthmatics (clinical note), 722
Japan, studies on epidemiology of nontuberculous mycobacteriosis in, 1280
Ketotifen inhibits accumulation of platelets and eosinophils in baboon lung after PAF-acether challenge, 855
Lambs, fetal, effect of chronic biphrenectomy on lung growth and maturation in, 167
Leukocyte
infiltration
association of disordered airway physiology to, in early- and late-phase bronchoconstriction after allergen challenge of nonanesthetized guinea pigs, 548
prolonged eosinophil-rich inflammatory, development of, in guinea-pig asthmatic response to ovalbumin inhalation, 541
polymorphonuclear
inhibition, by therapeutic concentrations of theophylline is mediated by cyclic adenosine monophosphate, 25
superoxide anion production by, and nonspecific bronchial hyperreactivity, association between, in chronic air-flow obstruction, 57
Leukotoxin 9,10-epoxy-12-octadecenoate, existence of, in lung lavages from rats breathing pure oxygen and from patients with adult respiratory distress syndrome, 535
Leukotriene(s)
D_4, contraction induced by, in guinea pig tracheal smooth muscle, effect of nipradilol on, 1045
release of, into nasal secretions of aspirin-sensitive asthmatics during reaction to aspirin, 847
Lipocortin synthesis, dexamethasone inhibits respiratory glycoconjugate secretion from feline airways *in vitro* by induction of, 353
Lipomodulin, dexamethasone inhibits respiratory glycoconjugate secretion from feline airways *in vitro* by induction of, 353
Lipoxygenase mediators, role of, in oxidant-induced lung injury, 1343
Lung
baboon, accumulation of platelets and eosinophils in, after PAF-acether challenge and its inhibition by ketotifen, 855
biopsy, open, in patients with diffuse pulmonary infiltrates and acute respiratory failure, 90
canine peripheral, role of mediators in response of, to 1 ppm ozone, 321
cancer
and cigarette smoking in New Mexico, 1110
and diesel exhaust exposure, retrospective cohort study of, in railroad workers, 820
evaluation of intrathoracic extent of, by plain chest radiography, computed tomography, and magnetic resonance imaging, 1456
changes in growth, morphometry, and biochemistry in, during experimental diabetes, 162
damage, bleomycin-induced, deferoxamine infusion does not inhibit, in rat, 1356
density, CT measurements of, in life can quantitate distal airspace enlargement in emphysema, 380
development, postnatal, in health and disease (NHLBI workshop summary), 742
disease
caused by tocainide, pathologic correlation in (case report), 458
chronic
acute reduction in fraction of inspired oxygen increased airway constriction in infants with, 861
ampicillin-, tetracycline-, and chloramphenicol-resistant *Hemophilus influenzae* in adults with, 695
diffuse interstitial, associated with H_2O_2 inhalation in dairy worker (case report), 1233
interstitial, and domestic wood burning (case report), 1229
elastin, cadmium-chloride-induced air-space enlargement with interstitial pulmonary fibrosis is not associated with destruction of, 918
feline, reversal of vascular tachyphylaxis to catecholamines and histamine in, 1336
fetal rat, histochemical and immunocytochemical identification of alveolar type II epithelial cells isolated from, 525
function
in adolescent males and lower respiratory illness in early childhood, 302
cumulative and reversible effects of lifetime smoking on simple tests of, in adults, 286
impairment as guide to exercise limitation in work-related lung disorders, 1089
growth and maturation in fetal lambs, effect of chronic biphrenectomy on, 167

guinea pig, eosinophil recruitment into, after PAF-acether and allergen administration, 498
hyperlucency, unilateral, after mediastinal irradiation (case report), 955
injury
acute, oxygen consumption during spontaneous ventilation with, in anesthetized pigs, 790
endotoxin-induced acute, effect of catalase on, in unanesthetized sheep, 420
experimental, monitoring of, by assessment of lung water distribution by nuclear magnetic resonance, 1371
induced by trimellitic anhydride
evidence of immunologic control of, 186
serial immunologic and histopathologic study of, 191
lavage angiotensin-converting enzyme as marker of, 531
lung volume maintenance prevents, during high frequency oscillatory ventilation in surfactant-deficient rabbits, 1185
oxidant-induced, role of cyclooxygenase and lipoxygenase mediators in, 1343
septic acute, tumor necrosis factor causes increased pulmonary permeability and edema when compared with, 1364
lavages from rats breathing pure oxygen and from patients with adult respiratory distress syndrome, existence of leukotoxin 9,10-epoxy-12-octadecenoate in, 535
normal human, regulation of procoagulant activity within bronchoalveolar compartment of, 1417
of patients with hypersensitivity pneumonitis, different types of cytotoxic lymphocytes recovered from, 70
peptide from alveolar macrophages that releases neutrophil enzymes into, in patients with adult respiratory distress syndrome, 1151
periphery, canine, aminophylline reduces air-flow-induced constriction in, 31
release of multiple tachykinins from capsaicin-sensitive sensory nerves in, by bradykinin, histamine, dimethylphenyl piperazinium, and vagal nerve stimulation, 1330
resistance mediated by tachykinins, phosphoramidon potentiates increase in, in guinea pigs, 337
selective delivery of pentamidine to, by aerosol (note), 477
sound(s)
nomenclature (correspondence), 985
normal, and airflow, 872
surface, effect of alveolar macrophage chemotaxis on bacterial clearance from, 1129
transplanted, elastic behavior of, 308
volume maintenance prevents lung injury during high frequency oscillatory ventilation in surfactant-deficient rabbits, 1185
water
distribution, assessment of, by nuclear magnetic resonance, 1371
measurement in intensive care units (correspondence), 747
Lymphadenopathy in inner-city population consisting principally of intravenous drug abusers with suspected AIDS, 1275
Lymphocyte(s)
cytotoxic, different types of, recovered from lungs of patients with hypersensitivity pneumonitis, 70
mouse lung, IgA-driven antibacterial activity against *S. pneumoniae* by, 138
proliferation, human alveolar macrophage suppression of, 765
Lymphoma with monoclonal gammopathy, primary pulmonary bronchoalveolar lavage in (case report), 957
Macrophage(s)
alveolar
chemotaxis, effect of, on bacterial clearance from lung surface, 1129
cytokines, spontaneous *in vitro* release of, after intratracheal instillation of bleomycin in rats, 1135
H_2O_2-induced arachidonic acid metabolism in rat, 49
interleukin-1-beta gene expression in, from normal subjects and patients with sarcoidosis, 1180
live human, role of plasminogen activator in degradation of extracellular matrix protein by, 412
murine, expression of Ia by, is upregulated during evolution of specific immune response in pulmonary parenchyma, 1411
and neutrophil function, alterations in, after fibrin microembolization, 630
peptide from, that releases neutrophil enzymes into lungs in patients with adult respiratory distress syndrome, 1151
rat, amiodarone-induced phospholipidosis in, 510
stimulation of arachidonic acid metabolism by adherence of, to plastic substrate, 38
cultured human, effectiveness of ofloxacin against *M. tuberculosis* and *M. avium*, and rifampin against *M. tuberculosis* in, 1141
lung (editorial), 507
oxidative microbicidal activity of, and activation by recombinant gamma interferon (correspondence), 1244
suppression, human alveolar, of lymphocyte proliferation, 765
Magnetic resonance
imaging, evaluation of intrathoracic extent of lung cancer by, 1456
nuclear, assessment of lung water distribution by, 1371
Medicare hospital payment system, non-CC-stratified pulmonary medicine diagnostic-related group, 998
Metabolism
arachidonic acid, stimulation of, by adherence of alveolar macrophages to plastic substrate, 38
eicosanoid, ozone-induced augmentation of, in epithelial cells from bovine trachea, 435
H_2O_2-induced arachidonic acid, in rat alveolar macrophages, 49
Metabolite, prostaglandin, and plasma elevations of histamine in acute asthma, 1009
Metalloendopeptidase, neutral, substance P-induced bronchoconstriction in guinea pig enhanced by inhibitors of, 331
Methacholine
-induced bronchoconstriction
inhibition of, in patients with COPD, 281
isotonic nebulized disodium cromoglycate provides better protection against, 1309
inhalation challenge, tolerance to, in nonasthmatic subjects (note), 1499
versus histamine in serial distribution of bronchoconstriction in normal subjects, 1312
Methylprednisolone, effects of, on acute lung paraquat toxicity in sheep, 173
Microembolization, fibrin, inflammatory events after, 630
Monocytes
blood, comparative oxidative microbicidal activity of, and activation by recombinant gamma interferon (correspondence), 1244
human, interleukin-1-beta gene expression in, from normal subjects and patients with sarcoidosis, 1180
Mouse
model of recrudescence of latent tuberculosis in the elderly, 716
lung lymphocytes, IgA-driven antibacterial activity against *S. pneumoniae* by, 138
Mucus
human tracheobronchial, sampling technique and rheology of, 707
propulsion of, by cilia (state of the art), 726
Muscarinic receptor function, effect of platelet-activating factor on, in guinea pig airways, 1317
Muscle
activation, upper airway, is augmented in patients with obstructive sleep apnea, 889
guinea pig tracheal smooth, effect of nipradilol on contraction induced by leukotriene D_4 in, 1045
weakness, respiratory, associated with cerebellar atrophy, 673
Mycobacteria, nontuberculous, pulmonary infection with, 149
Mycobacteriology, drug-susceptibility tests in (pulmonary perspective), 1217

Mycobacteriosis, nontuberculous, studies on epidemiology of, in Japan, 1280
Mycobacterium
avium complex
association of plasmids and virulence of (note), 212
combinations of rifampin or rifabutine plus ethambutol against, 711
evidence that antituberculosis drugs are really effective in treatment of pulmonary infection caused by, 144
effectiveness of ofloxacin against, in cultured human macrophages, 1141
tuberculosis
effectiveness of ofloxacin against, in cultured human macrophages, 1141
minimal inhibitory and bactericidal concentrations of rifabutine for (note), 719
Myopathy, acute, in severe acute asthma treated with intravenously administered corticosteroids (case report), 460
Naloxone, ethanol-induced depression of hypoxic drive and reversal by, sex difference in, 1406
Neurokinins A and B, stimulation of chlorine secretion by, in canine tracheal epithelium, 899
Neutrophil(s)
and alveolar macrophage function after fibrin microembolization, 630
elastase, evaluation of S-type alpha-1-antitrypsin as inhibitor of, 364
enzymes, peptide from alveolar macrophages that releases, into lungs in patients with adult respiratory distress syndrome, 1151
radiolabeled, increased intrapulmonary retention of, in early oxygen toxicity, 345
New Mexico
cigarette smoking and lung cancer in, 1110
Hispanics
discrepancies between self-reported and validated cigarette smoking in community survey of, 810
respiratory diseases and cigarette smoking in, 815
Nipradilol, effect of, on leukotriene D_4-induced contraction in guinea pig tracheal smooth muscle, 1045
Nitrogen
dioxide
-induced emphysema in rats ameoliorated by beta-aminopropionitrile treatment, 376
pathophysiology of enhanced susceptibility to murine cytomegalovirus respiratory infection during short-term exposure to 5 ppm, 912
washout test, single-breath, to identify smoker who will develop chronic airflow limitation, 293
Nursing home residents, conversion and reversion of tuberculin reactions in, 801
Nutrition, supplementary oral, effect of, in poorly nourished patients with COPD, 1075
Ofloxacin, effectiveness of, against *M. tuberculosis* and *M. avium* in cultured human macrophages, 1141
Oleic acid-induced microvascular damage on indexes of pulmonary endothelial function in anesthetized dogs, 1350
Osmolality of nasal secretions increases when inflammatory mediators are released in response to inhalation of cold dry air, 625
Ovalbumin inhalation, development of prolonged eosinophil-rich inflammatory leukocyte infiltration in guinea-pig asthmatic response to, 541
Oxygen
concentration, high, ethane production rate in rats exposed to, 341
consumption during spontaneous ventilation with acute lung injury in anesthetized pig, 790
delivery, inaccurate, in some portable liquid oxygen devices (note), 204
fraction of inspired, acute reduction in, increases airway constriction in infants with chronic lung disease, 861
pure, existence of leukotoxin 9,10-epoxy-12-octadecenoate in lung lavages from rats breathing, 535
saturation, computer-based analysis of, identification and quantification of apneas by (note), 1238
therapy, controlled, effects of, on ventricular function in patients with stable and decompensated cor pulmonale, 1289
toxicity
early, increased intrapulmonary retention of radiolabeled neutrophils in, 345
protection of rat from, by inducers of cytochrome P-450 system, 688
Oxyhemoglobin dissociation curve, P_{90} as clinically relevant landmark on (pulmonary perspective), 962
Ozone
ambient, effects of, on respiratory function in active, normal children, 313
airway response to ultra short-term exposure to, 326
distal airway remodeling in rats chronically exposed to, 924
experimental rhinovirus infection in human volunteers exposed to, 1124
-induced augmentation of eicosanoid metabolism in epithelial cells from bovine trachea, 435
in vivo exposure to, causes increased *in vitro* responses of small airways (note), 1236
role of mediators in response of canine peripheral lung to 1 ppm, 321
P_{90} as clinically relevant landmark on oxyhemoglobin dissociation curve (pulmonary perspective), 962
PAF-acether
administration, eosinophil recruitment into guinea pig lung after, 948
challenge, accumulation of platelets and eosinophils in baboon lung after, 855
Paraquat toxicity, acute lung, effects of methylprednisolone on, in sheep, 173
Parenchyma
lung, asbestos bodies in bronchoalveolar lavage and in, 75
pulmonary, expression of Ia by murine alveolar macrophages is upregulated during evolution of specific immune response in, 1411
Pentamidine, selective delivery of, to lung by aerosol (note), 477
Pentoxifylline, effects of, on pulmonary hemodynamics during acute hypoxia in anesthetized dogs, 1099
Peptide from alveolar macrophages that releases neutrophil enzymes into lungs in patients with adult respiratory distress syndrome, 1151
Peritonitis, pulmonary edema after *E. coli* correlates with thiobarbituric-acid-reactive materials in bronchoalveolar lavage, 783
Pharmacokinetics and pulmonary extraction of PGE_1 during continuous intravenous infusion in patients with adult respiratory distress syndrome, 5
Phorbol myristate acetate-induced microvascular damage on indexes of pulmonary endothelial function in anesthetized dogs, 1350
Phosphatidylglycerol synthesis of, by freshly isolated adult rat alveolar type II cells, role of intracellular glycerol-3-phosphate in, 519
Phospholipidosis, amiodarone-induced, in rat alveolar macrophages, 510
Phospholipids, bronchoalveolar lavage, abnormalities in, in idiopathic pulmonary fibrosis, 585
Phosphoramidon potentiates increase in lung resistance mediated by tachykinins in guinea pigs, 337
Pigs
anesthetized, oxygen consumption during spontaneous ventilation with acute lung injury in, 790
neonatal, hypoxic pulmonary vasoconstriction during and after infusion of group B *Streptococcus* in, 774
Plasmids and virulence, association of, of *M. avium* complex (note), 212

Plasminogen activator, role of, in degradation of extracellular matrix protein by live human alveolar macrophages, 412
Platelet(s)
accumulation of, in baboon lung after PAF-acether challenge and its inhibition by ketotifen, 855
-activating factor
bronchoconstriction induced by, in humans, 1015
effect of, on histamine and muscarinic receptor function in guinea pig airways, 1317
depletion modulates eosinophil recruitment into guinea pig lungs after PAF-acether and allergen administration, 948
Plethysmograph, alternate method for determination of functional residual capacity in a, 273
Pneumocystis carinii
infections, unexpectedly high incidence of, after lung-heart transplantation, 1268
pneumonia
alveolar-capillary block in patients with, 443
requiring mechanical ventilation, survival and prognostic factors in, 1264
serum lactate dehydrogenase levels and, 796
Pneumonia
acute bacteremic *Pseudomonas*, role of prostacyclin and thromboxane in circulatory changes of, in dogs, 700
nosocomial
advances in preventing (editorial), 256
bacteriologic diagnosis of, after prolonged mechanical ventilation, 259
new advances in diagnosing, in intubated patients. Part I (editorial), 253
prevention of, using topical and parenteral antimicrobial agents, 265
P. carinii
alveolar-capillary block in patients with, 443
and serum lactate dehydrogenase levels, 796
severe, requiring mechanical ventilation, survival and prognostic factors in, 1264
Pneumonitis
hypersensitivity, different types of cytotoxic lymphocytes recovered from lungs of patients with, 70
experimental hypersensitivity, blast cells transfer, in guinea pigs, 1449
Potassium, serum, changes in, in healthy and in asthmatic subjects during exercise, 833
Pregnancy, rib cage and abdominal volume displacement during breathing in, 668
Pressure
partitioning
respiratory, during quiet inspiration in unilateral and bilateral diaphragmatic weakness, 1401
transdiaphragmatic, effect of, on activation and fatigue of diaphragm, 1395
-volume
curve, exponential analysis of, 1083
relationships, static, exponential analysis of, and elastic behavior of transplanted lung, 308
Prostacyclin
modulates eosinophil recruitment into guinea pig lungs after PAF-acether and allergen administration, 948
role of, in circulatory changes of acute bacteremic *Pseudomonas* pneumonia in dogs, 700
Prostaglandin(s)
E_1, pulmonary extraction
of, in adult respiratory distress syndrome (editorial), 2
and pharmacokinetics of, during continuous intravenous infusion in patients with adult respiratory distress syndrome, 5
metabolite, plasma elevations of histamine and, in acute asthma, 1009
release of, into nasal secretions of aspirin-sensitive asthmatics during reaction to aspirin, 847
Protein
extracellular matrix, role of plasminogen activator in degradation of, by live human alveolar macrophages, 412
human
low molecular weight associated with pulmonary surfactant, isolation and partial characterization of, 1426
major basic, effect of, on ion transport in dog tracheal epithelium, 13
lavaged, chemotactic enhancement by (correspondence), 243
surfactant
-associated, in tracheal aspirates of infants with respiratory distress syndrome after surfactant therapy, 943
SP28-36 label canine type II, monoclonal antibodies to, and nonciliated bronchiolar cells by immunofluorescence, 399
Pulmonary
disease
chronic obstructive
dyspnea and diaphragmatic fatigue in patients with, 662
inhibition of methacholine-induced bronchoconstriction in patients with, 277
nasal flow on breathlessness, effect of, in patients with, 1285
supplementary oral nutrition, effect of, in poorly nourished patients with, 1075
thoracic gas volume measurements in, by low frequency ambient pressure changes, 277
urapidil therapy, effect of, on hemodynamics and gas exchange in exercising patients with, 1068
variability of perceived sense of effort in breathing during exercise in patients with (note), 206
epidemiology, longitudinal analysis (NHLBI workshop summary), 1241
endothelial function, effects of oleic acid-, alpha-naphthylthiourea-, and phorbol myristate acetate-induced microvascular damage on indexes of, in anesthetized dogs, 1350
extraction
of PGE_1 in adult respiratory distress syndrome (editorial), 1
and pharmacokinetics of PGE_1 during continuous intravenous infusion in patients with adult respiratory distress syndrome, 5
function
is influenced by heavy alcohol consumption, 1119
level and airway responsiveness to histamine, relationship between, in random population sample, 826
testing, effect of laryngeal anesthesia on, in normal subjects, 656
infection
caused by *M. avium* complex, evidence that antituberculosis drugs are really effective in treatment of, 144
with nontuberculous mycobacteria, 149
infiltrates, diffuse, and acute respiratory failure, open lung biopsy in patients with, 90
injury induced by inhalation of bacterial endotoxin, mediators of, 100
medicine
costs of, and DRGS (pulmonary perspective), 964
diagnostic-related group medicare hospital system, financial risk, hospital cost, and complications and comorbidities in non-CC-stratified, 998
venous obstruction, dyspnea from unilateral (correspondence), 491
Rabbit(s)
airway secretions influence upper airway patency in, 1379
surfactant-deficient, lung volume maintenance prevents lung injury during high frequency oscillatory ventilation in, 1185
Radiography, plain chest, evaluation of intrathoracic extent of lung cancer by, 1456
Railroad workers, retrospective cohort study of lung cancer and diesel exhaust exposure in, 820
Rat
alveolar
macrophages
amiodarone-induced phospholipidosis in, 510

H_2O_2-induced arachidonic acid metabolism in, 49
type II cells, role of intracellular glycerol-3-phosphate in synthesis of phosphatidylglycerol by freshly isolated, 519
breathing pure oxygen, existence of leukotoxin 9,10-epoxy-12-octadecenoate in lung lavages from, 535
chronically exposed to ozone, distal airway remodeling in, 924
deferoxamine infusion does not inhibit bleomycin-induced lung damage in, 1356
exposed to high oxygen concentration, ethane production rate in, 341
lung, fetal, histochemical and immunocytochemical identification of alveolar type II epithelial cells isolated from, 525
NO_2-induced emphysema in, ameliorated by beta-aminopropionitrile treatment, 376
protection of, from oxygen toxicity by inducers of cytochrome P-450 system, 688
sensitized inbred, late airway responses to antigen challenge in, 1033
spontaneous *in vitro* release of alveolar macrophage cytokines after intratracheal instillation of bleomycin in, 1135
trachea, respiratory tract infections increase susceptibility to neurogenic inflammation in, 1432
Research-training debate, more on (correspondence), 243
Resection, pulmonary, diaphragm function after pulmonary, 678
Respiratory
control in presenile dementia, 158
diseases and cigarette smoking in Hispanic population in New Mexico, 815
distress syndrome after surfactant therapy, surfactant-associated proteins in tracheal aspirates of infants with, 943
failure
acute
complications of (state of the art), 1463
and diffuse pulmonary infiltrates, open lung biopsy in patients with, 90
airway epithelial damage in premature infant with (case report), 450
postoperative, and its relationship to diaphragm function after pulmonary resection, 678
function, effects of ambient ozone on, in active, normal children, 313
impairment, scientific issues in assessment of (NHLBI workshop summary), 1505
system mechanics, effects of unilateral pleural symphysis on, in anesthetized dogs, 1385
tract
human lower, does immunoglobulin synthesis occur on epithelial surface of, 17
infections increase susceptibility to neurogenic inflammation in rat trachea, 1432
lower, accumulation of Langerhans' cells on epithelial surface of, in association with cigarette smoking, 406
normal human lower, high levels of transforming growth factor-beta are present in epithelial lining fluid of, 1360
Rheology of human tracheobronchial mucus, 707
Rhinitis
allergic, local cellular and humoral responses to antigenic and distilled water challenge in subjects with, 617
and sore throat, nasal provocation with bradykinin induces symptoms of, 613
Rhinovirus infection, experimental, in human volunteers exposed to ozone, 1124
Rib cage and abdominal volume displacements during breathing in pregnancy, 668
Rifabutine
minimal inhibitory and bactericidal concentrations of, for *M. tuberculosis* (note), 719
plus ethambutol or rifampin, combinations of, against *M. avium* complex, 711
Rifampin
effectiveness of, against *M. tuberculosis* in cultured human macrophages, 1141
or rifabutine plus ethambutol, combinations of, against *M. avium* complex, 711
Sarcoidosis
active, elevated concentrations of soluble interleukin-2 receptors in serum samples and bronchoalveolar lavage in, 759
functional, significance of anti-T-lymphocyte antibodies in, 600
interleukin-1-beta gene expression in human monocytes and alveolar macrophages from patients with, 1180
and interleukin-2 receptors (editorial), 757
pulmonary, uniformity of bronchoalveolar lavage in patients with, 79
T-lymphocytes recovered by bronchoalveolar lavage from normal subjects and from patients with, are refractory to proliferative signals, 592
Serotonin immunoreactive pulmonary neuroendocrine cells, changes in, in cystic fibrosis and after prolonged mechanical ventilation, 123
Serum
fetal bovine, modulation by, of stimulation of arachidonic acid metabolism by adherence of alveolar macrophages to plastic substrate, 38
K^+ in healthy and in asthmatic subjects during exercise, 833
lactate dehydrogenase levels and *P. carinii* pneumonia, 796
Sheep
alpha-1-proteinase inhibitor, characterization of, 558
conscious, dibutyryl cyclic AMP inhibits acute hypoxic pulmonary vasoconstriction in, 779
effects of methylprednisolone on acute lung paraquat toxicity in, 173
model, aluminum inhalation reduces silicosis in, 1172
unanesthetized, effect of catalase on endotoxin-induced acute lung injury in, 420
Silicosis, aluminum inhalation reduces, in sheep model, 1172
Sleep
apnea
obstructive, upper airway muscle activation is augmented in patients with, 889
role of, in nocturnal asthma (note), 1502
hypopnea syndrome, 895
hypoxemia during, in Duchenne muscular dystrophy, 884
Smoke, cigarette, effects of, on tissue uptake and retention of iron oxide in guinea pig, 1382
Smoker who will develop chronic airflow limitation, single-breath N_2 test to identify, 293
Smoking
cigarette
accumulation of Langerhans' cells on epithelial surface of lower respiratory tract in association with, 406
discrepancies between self-reported and validated, in community survey of New Mexico Hispanics, 810
influence of, on sequential bronchoalveolar lavage in experimental extrinsic allergic alveolitis, 1104
and lung cancer in New Mexico, 1110
respiratory diseases and, in Hispanic population in New Mexico, 815
and dust exposure, clinically important respiratory effects of, in British coal miners, 106
lifetime, cumulative and reversible effects of, on simple tests of lung function in adults, 286
maternal, and bronchial responsiveness in children (correspondence), 243
Snoring, role of, in nocturnal asthma, (note), 1502
Southeast Asian refugees, tuberculosis in cohort of, 805
Spirometry
standardization of (correspondence), 491
and ventilation-perfusion inequality, serial relationships between, in acute severe asthma requiring hospitalization, 1055

STATE OF THE ART
Bronchiectasis: update of an orphan disease, 969
Complications of acute respiratory failure, 1463
Endogenous regulation of bronchomotor tone, 1198
Health effects and sources of indoor air pollution. Part II, 221
Propulsion of mucus by cilia, 726
Pulmonary toxicity by beryllium, 464
Streptococcus, group B, hypoxic pulmonary vasoconstriction during and after infusion of, in neonatal piglets, 774
Streptococcus pneumoniae, IgA-driven antibacterial against, by mouse lung lymphocytes, 138
Substance P-induced bronchoconstriction in guinea pig, 331
Superoxide anion production by polymorphonuclear leukocytes and nonspecific bronchial hyperreactivity, association between, in chronic air-flow obstruction, 57
Surfactant
-associated proteins in tracheal aspirates of infants with respiratory distress syndrome after surfactant therapy, 943
-deficient rabbits, lung volume maintenance prevents lung injury during high frequency oscillatory ventilation in, 1185
pulmonary, isolation and partial characterization of human low molecular weight protein associated with, 1426
Symphysis, unilateal pleural, effects of, on respiratory system mechanics and gas exchange in anesthetized dogs, 1385
Syndrome
acquired immunodeficiency
alveolar-capillary block in patients with, 443
transbronchial biopsy without fluoroscopy in patients with diffuse roentgenographic infiltrates and (clincal commentary), 486
adult respiratory distress
as specific manifestation of general permeability defect in trauma patients, 95
effect of almitrine on ventilation-perfusion distribution in, 1062
existence of leukotoxin 9,10-epoxy-12-octadecenoate in lung lavages from patients with, 535
peptide from alveolar macrophages that releases neutrophil enzymes into lungs in patients with, 1151
pulmonary extraction
of PGE_1 in (editorial), 1
and pharmacokinetics of PGE_1 during continuous intravenous infusion in patients with, 5
Churg-Strauss, allergic bronchopulmonary aspergillosis progressing to (case report), 1226
respiratory distress, surfactant-associated proteins in tracheal aspirates of infants with, after surfactant therapy, 943
sleep hypopnea, 895
Synergism between inflammatory mediators *in vivo*, 636
Tachykinin(s)
-induced bronchoconstriction, mechanism of, in rats, 1038
multiple, release of, from capsaicin-sensitive sensory nerves in lung by bradykinin, histamine, dimethylphenyl piperazinium, and vagal nerve stimulation, 1330
phosphoramidon potentiates increase in lung resistance mediated by, in guinea pigs, 337
Tachyphylaxis, vascular, to catecholamines and histamine, reversal of, in feline lung, 1336
^{99m}Tc-DTPA, pulmonary clearance of, in infants who subsequently develop bronchopulmonary dysplasia (note), 210
Tetracycline-resistant *Hemophilus influenzae* in adults with chronic lung disease, 695
Theophylline
minimally inhibits bronchoconstriction induced by dry cold air inhalation in asthmatic subjects, 1304
pharmacokinetics, effect of whole virus influenza vaccination on, 903
polymorphonuclear leukocyte inhibition by therapeutic concentrations of, is mediated by cyclic 3',5'-adenosine monophosphate, 25
responses to, during dyspnea and diaphragmatic fatigue in patients with COPD, 662
Thiobarbituric-acid-reactive materials, pulmonary edema after *E. coli* peritonitis correlates with, in bronchoalveolar lavage fluid, 783
Thromboxane, role of, in circulatory changes of acute bacteremic *Pseudomonas* pneumonia in dogs, 700
T-lymphocytes recovered by bronchoalveolar lavage from normal subjects and from patients with sarcoidosis are refractory to proliferative signals, 592
Tocainide, pathologic correlation in lung disease caused by (case report), 458
Toluene diisocyanate
fatal asthma in subject sensitized to (case report), 1494
occupational asthma caused by, follow-up study of subjects with, 1326
Tomography, computed
evaluation of intrathoracic extent of lung cancer by, 1456
lung density measured by, in life can quantitate distal air-space enlargement in human emphysema, 380
and magnetic resonance imaging in central hypoventilation, 393
pathologic correlation in lung disease caused by tocainide, as shown by (case report), 458
Trachea
bovine, ozone-induced augmentation of eicosanoid metabolism in epithelial cells from, 435
rat, respiratory tract infections increase susceptibility to neurogenic inflammation in, 1432
Transplantation, marrow, mechanical ventilation after, 682
Trauma, patients with, adult respiratory distress syndrome as specific manifestation of general permeability defect in, 95
Trimellitic anhydride
evidence of immunologic control of lung injury induced by, 186
serial immunologic and histopathologic study of lung injury by, 191
Tryptase, release of, in atopic subjects with and without asthma, activation of pulmonary mast cells by bronchoalveolar allergen challenge, 1002
Tuberculin
reactions, conversion and reversion of, in nursing home residents, 801
reactor, isoniazid for (pulmonary perspective), 215
skin test, evaluation of third sequential, in chronic care population, 53
Tuberculosis
in cohort of Southeast Asian refugees, 805
latent, mouse model of recrudescence of, in the elderly, 716
pulmonary, five-year follow-up of clinical trial of three 6-month regimens of chemotherapy given intermittently in continuation phase in treatment of, 1147
Tumor necrosis factor causes increased pulmonary permeability and edema when compared with septic acute lung injury, 1364
Urapidil therapy, effects of, on hemodynamics and gas exchange in exercising patients with COPD and pulmonary hypertension, 1068
Vaccination, whole virus influenza, effect of, on theophylline pharmacokinetics, 903
Vagal nerve stimulation, release of multiple tachykinins from capsaicin-sensitive sensory nerves in lung by, 1330
Valve resistance, expiratory, mechanisms of, 1390
Vasoconstriction
acute hypoxic pulmonary, dibutyryl cyclic AMP inhibits, in conscious sheep, 779
hypoxic pulmonary, during and after infusion of group B *Streptococcus* in neonatal piglets, 774
Ventilation
high frequency oscillatory, lung volume maintenance prevents lung injury during, in surfactant-deficient rabbits, 1185
mechanical
after marrow transplantation, 682

survival and prognostic factors in severe *P. carinii* pneumonia requiring, 1264
-perfusion
distribution, effects of almitrine on, in adult respiratory distress syndrome, 1062
inequality and spirometry, serial relationships between, in acute severe asthma requiring hospitalization, 1055
prolonged mechanical
bacteriologic diagnosis of nosocomial pneumonia after, 259
changes in bombesin, calcitonin, and serotonin immunoreactive pulmonary neuroendocrine cells after, 123
spontaneous, oxygen consumption during, with acute lung injury in anesthetized pigs, 790
Ventilatory response to CO_2, relationship between cough caused by hypotonic aerosol and, in normal subjects, 647
Ventricle, left, aminophylline has little positive inotropic effect and slightly negative diastolic effect on, during hypoxic conditions in dogs, 1296
Ventricular function, effects of controlled oxygen therapy on, in patients with stable and decompensated cor pulmonale, 1289
Verapamil, aerosolized, effect of, on response to isoproterenol in asthmatic (clinical note), 722
Western red cedar workers, longitudinal study of occurrence of bronchial hyperresponsiveness in, 651
Workers
coal miners, British, clinically important respiratory effects of dust exposure and smoking in, 106
dairy, diffuse interstitial lung disease associated with H_2O_2 inhalation in (case report), 1233
railroad, retrospective cohort study of lung cancer and diesel exhaust exposure in, 820
western red cedar, longitudinal study of occurrence of bronchial hyperresponsiveness in, 651

January–June 1988
